

Dear SNDE member,

On the 25th annual symposium of the society for Nonlinear Dynamics and Econometrics (SNDE) in Paris it was announced that SNDE is now an ASSA member, and therefore has the privilege of organizing one session at the annual ASSA meetings in January each year.

To select papers for this session, we announce here a call for papers for the inaugural SNDE session at the ASSA meeting in Philadelphia on January 5-7, 2018. Submissions should be sent to hilde.c.bjornland@bi.no by Monday May 15, 2017.

Each submission should designate in the email which one of the following 5 categories the paper falls into: (1) Macro Theory, (2) Empirical Macro, (3) Forecasting, (4) Time Series, or (5) Finance.

A committee set up by the Executive Committee of SNDE will review the submitted papers and put together a session of 4 high quality papers and then solicit discussants.

Only SNDE members can submit a paper for the SNDE inaugural session at the ASSA meeting. According to the Society's bylaws: "Membership in the Society is defined as those who have paid registration fees and/or have attended an annual meeting in the last five years." You are receiving this email because you attended one or more of the SNDE symposiums from 2013 to 2017 and are therefore eligible to submit a paper for the SNDE session.

Sincerely,

Hilde C. Bjørnland
President, SNDE
